The Dow Jones lost over 500 points on the day Lehman collapsed, starting a market freefall that erased \$16 trillion in household wealth.

October 2008: U.S. government created the \$700 billion Troubled Asset Relief Program (TARP) to stabilize the financial system.

By 2009, U.S. unemployment reached 10%, with 8.7 million jobs lost and millions of people losing their homes to foreclosure.

The Federal Reserve used unconventional monetary policy, including near-zero interest rates and buying \$4.5 trillion in securities.

While markets recovered over time, the crisis fundamentally changed financial regulation and highlighted systemic risks in global banking.
